

# Ultramicrotomes

## RMC PT-XL ultramicrotome, PAA A061

- Cutting speed range 0.1 - 49.9 mm/s
- Section thickness range adjustable from 1 to 9999 nm
- Retraction 80  $\mu\text{m}$
- Four memory channels to store section thickness and cutting speed
- Total travel and section counter

## RMC MT6000 ultramicrotome, PAA A079A

- Cutting speed range 0.1 - 39.9 mm/s
- Section thickness range adjustable from 5 to 995 nm in 5 nm increments
- Retraction 80  $\mu\text{m}$
- Visutrax: shows position of cantilever arm within cutting range
